References—John D. Stephens, President of the State Convention of Missouri, held at the State Capital, January 24th, will show the character and the value of the gathering by which a national convention has been called.
RESOLUTIONS.
Resolved, That the Liberal Republican of Missouri, faithful now as we were in the dark days of civil war to the principles of true Republicanism, by no act or word will endanger the right of sovereignty of the Union, emancipation, equality of civil rights, or enfranchisement. To these established principles, now embodied in the Constitution, we claim the loyalty of all good citizens.
Resolved, That a true and lasting peace can come only from such profound reconciliation as encompasses the wrongs in this State. Particular attention paid to the collection of the taxes, and the payment of the same. We therefore demand, with equal earnestness for all, complete amnesty for all, that the intelligence and experience of every State may be welcomed to active service for the common good.
Resolved, That no form of taxation is just or wise which places needless burdens upon the people. We demand a general reform of the tariff, so that duties shall be removed which, in addition to the revenue, tend to the treasury, involve increase in the price of domestic products, and a consequent tax for the benefit of favored interests.
Resolved, That the shameful abuse of Government patronage for controlling elections, in violation of the letter and spirit of the law, is a crime against the people, and a disgrace to the country. We demand a general reform of public service. Those who would suppress investigation for the State, select members to the country than to any party. We honor those Senators whose courageous course has compelled the disclosure of grave misdeeds, and they deserve the thanks and hearty support of all good citizens.
Resolved, That local self government, with impartial suffrage, will guard the rights of all citizens more securely than any centralized authority. It is time to stop the growing encroachments of executive power, the use of coercion or bribery to ratify a treaty, the packing of a Supreme Court to relieve rich corporations, the seating of members of Congress not elected by the people, the bribing of bounty men about State Conventions, the resort to unconstitutional means to suppress dissent, and the use of force to suppress dissent, and the use of force to suppress dissent.

The New Political Movement.
The following extracts from the proceedings of the Liberal Republican State Convention, of Missouri, held at the State Capital, January 24th, will show the character and the value of the gathering by which a national convention has been called.
RESOLUTIONS.
Resolved, That the Liberal Republican of Missouri, faithful now as we were in the dark days of civil war to the principles of true Republicanism, by no act or word will endanger the right of sovereignty of the Union, emancipation, equality of civil rights, or enfranchisement. To these established principles, now embodied in the Constitution, we claim the loyalty of all good citizens.
Resolved, That a true and lasting peace can come only from such profound reconciliation as encompasses the wrongs in this State. Particular attention paid to the collection of the taxes, and the payment of the same. We therefore demand, with equal earnestness for all, complete amnesty for all, that the intelligence and experience of every State may be welcomed to active service for the common good.
Resolved, That no form of taxation is just or wise which places needless burdens upon the people. We demand a general reform of the tariff, so that duties shall be removed which, in addition to the revenue, tend to the treasury, involve increase in the price of domestic products, and a consequent tax for the benefit of favored interests.
Resolved, That the shameful abuse of Government patronage for controlling elections, in violation of the letter and spirit of the law, is a crime against the people, and a disgrace to the country. We demand a general reform of public service. Those who would suppress investigation for the State, select members to the country than to any party. We honor those Senators whose courageous course has compelled the disclosure

MISCELLANEOUS ITEMS.

In a significant comment on Gould's honesty, that Erie stock has gone up from \$64 to \$44 since he was deposed and the proprietors of the road came into possession of their own.

Trees have been found in Australia taller than those of California, though not as large. One has been measured 480 feet high. The wood closely resembles red cedar, and the bark is sometimes eighteen inches thick.

The Secretary of the Treasury has authorized the Assistant Treasurer at New York to purchase one million dollars of bonds on each Wednesday, and to sell one million dollars in gold on each Thursday, during the month of April.

As soon as the building season fairly commences the Michigan Central Railroad Company will put their road four extra daily trains which are to be devoted chiefly to the transportation of lumber and brick from various points in Michigan to Chicago.

To think of Clay, Calhoun, Benton, Boring, Webster, Douglas, says the Indianapolis *Journal*, and then of Harlan, Nye, Cameron and Brownlow, is to drop from the well, we all know. But where's the use in drawing such unpleasant pictures? Life is too short to be wasted on such irreconcilable parallels.

Has any one of our readers any adequate conception of the vast size of the Egyptian pyramids? A friend lately returned from thence, who has visited the grand pyramid of Cheops, says that in the deep sand four hundred feet before he had passed one of its sides, and between five and six thousand feet before he had reached the other.

He says that taking one hundred Boston churches of the ordinary width, and arranging them in a hollow square, it would not be a pile on all the bricks and mortar in the city of New York, and the structure would not be so high and solid as this great work of man. One layer of bricks was long ago removed, and the hollow square supplied the demands of a city of half a million of people for a century, if permitted to use it with perfect freedom.

Albino or Lucerne.

We clip the following from the *Banner of the South*, and call attention of farmers to the manner of planting the same. Who, in this State, has tried the method of planting in drills?

So valuable a crop, for green feed and for dry forage, cannot be too often or too highly spoken of. We have advised the culture of it, and given general information as to the time and manner of planting, and now refer to it again because this is the season for putting it in. It is a permanent crop, but highly valuable for cultivation on a large scale. Only one acre of it will yield an immense amount of hay, of a quality superior to any other kind within the State. The seed of Lucerne is fine as mustard-seed, or finer. Therefore it requires soil pulverized and mellow. Its roots are long, and penetrate deeply, beyond the reach of drought. Therefore the soil must be deep. It yields several crops, five or six yearly, after the first year, and therefore the soil must be very rich to make it profitable. Rich, deep and finely pulverized are three essential degrees of preparation for the soil in which Lucerne is to be sown.

Open drills, twelve inches apart; sow the seed at the rate of ten pounds per acre; cover lightly, and, if convenient, press the earth lightly over the seed. When the seed germinates, keep the plants free from weeds and grass, and stir the surface often. No further attention is necessary. The first year it should not be cut more than once or twice. After that it may be cut five or six times each season. The cutting should be when the growth is a foot to eighteen inches high, according to the strength of the soil. After cutting it is a permanent crop, lasting for certainly many years. Some writers say it will yield six or seven years. We know of one stand of Lucerne that has been vigorously growing twenty-five years, within our own observation, and was probably twenty years old before we saw it. This is on the borders of a garden-walk, laid out and planted fifty years ago. The seed and the Lucerne was sown perhaps as an ornamental growth, or to keep up the borders. It has answered this last purpose well, and been a great help alone. It has grown for many years without symptoms of decay. This one instance indicates the adaptability of this grass to the soil and climate of the South. Like all others of the clover tribe, it will do best in a clay soil, though there is no doubt of its successful culture in light land. It is the same grass that is now often spoken of as the Spanish, or California clover.

TRADE WITH JAPS.—The value of our trade relations with the Japs may be ascertained when it is stated that in 1860 the trade carried on in American vessels amounted to only \$18,865; in 1866 the commerce in American vessels had increased to \$84,122, while the total commerce of the islands in foreign vessels was \$2,348,126. In 1869 the commerce in American vessels amounted to \$5,125,645, and the total trade to \$7,301,373. In this year the total tonnage of the United States entered at the five open ports of Japan was 30,000 tons, which was nearly one half of the foreign tonnage at these ports.

ALEX. H. STEPHENS, of Georgia, under a sudden inspiration, writes of the recent anti-Grant address of Grant Brown, at Jefferson City: "All who hold the sentiment of Governor Grant Brown on this subject, and will in good faith assist in defeating the Radical attempts at empire and central despotism, we hail, not only as cordially accepted allies, but as good enough Democrats for us in the coming conflict, whatever may have been their past party names or associations."

CLOTHING

FOR THE MILLION!

Quality Good, Prices Low!

READ & WELCH

Successors to MAGEE & READ,

Are prepared to supply all the wants of this community in the line of

GENTLEMEN'S CLOTHING,

Hats, Caps, Boots, Shoes,

AND EVERY VARIETY OF

GENTS' UNDERWEAR

—AND—

Furnishing Goods.

We have on hand lots of goods, and we want to sell them.

Please give us a call and see for yourselves.

READ & WELCH

Dealers in all kinds of

FAMILY GROCERIES

AND PROVISIONS

Fruits and Vegetables,

—AND—

DAIRY PRODUCE, ETC., ETC.

In the new brick building, opposite the

College, Main street, Woodland.

SHAVING REVENUE

From the old store into our new and spacious brick block, we are now better than ever prepared to supply families and the public with everything in the way of provisions. We have a large and carefully selected stock of

GROCERIES,

To which we ask the attention of this community, believing that we cannot be surpassed in the selection of our goods.

Will be found with us at all times, and we shall keep fully up to the market in this department of our trade.

VEGETABLES

Will receive special attention and the choicest qualities kept on hand, fresh, throughout the season of each variety.

FRUITS

Will be a leading feature of our establishment, and customers will be supplied with any number or quantity they may desire.

POULTRY AND EGGS

Will be a leading feature of our establishment, and customers will be supplied with any number or quantity they may desire.

BUTTER AND CHEESE

Are particularly in our line, and customers can rely upon getting the best market prices, and we cannot overstate all our different kinds of goods in an advertisement.

We shall keep a complete stock of goods on hand and sell at fair prices; therefore we ask a share of patronage from the people of Woodland and vicinity, guaranteeing entire satisfaction to all who favor us with their trade.

A. & T. PORTER,

Opposite College, Main st., Woodland.

Plantation Bitters

S. T.—1860—X.

This wonderful Vegetable Restorative is the sheet anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid, it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

JA13-1y

Beautiful Woman.

HAGAN'S MAGNOLIA BALM

GIVES TO THE COMPLEXION THE FRESHNESS OF YOUTH.

HAGAN'S MAGNOLIA BALM overcomes the flushed appearance caused by heat, fatigue and excitement. It makes the lady of forty appear but twenty, and so natural and perfect that no person can detect its application. By its use the roughest skin is made to rival the pure radiant texture of youthful beauty. It removes redness, blotches and pimples. It contains nothing that will injure the skin in the least.

MAGNOLIA BALM is used by all fashionable ladies in New York, London and Paris. It costs only 75 cents a bottle, and is sold by all druggists and perfumers.

SCIENTIFIC AMERICAN

FOR 1872.

Twenty-Seventh Year.

THIS SPLENDID WEEKLY, steadily enlarged and improved, is the most useful and interesting journal ever published. Every number is so carefully printed on the paper and elegantly illustrated with original engravings, representing New Inventions; Novelties in Mechanism, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

PATENTERS, MECHANICS, ENGINEERS, CHEMISTS, MANUFACTURERS, AND PEOPLE OF ALL PROFESSIONS OR TRADES WILL FIND THE SCIENTIFIC AMERICAN OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a CONSTANT SOURCE OF VALUABLE INSTRUCTION. The Editors are assisted by many of the ablest AMERICAN AND EUROPEAN WRITERS, and having access to all the leading Scientific and Mechanical Journals of the World, the columns of the SCIENTIFIC AMERICAN are constantly enriched with the choicest information.

An excellent List of all the Patents issued is published

Every Week.

The yearly number of the SCIENTIFIC AMERICAN makes Two Splendid Volumes of Nearly One Thousand Pages, equivalent in size to four thousand ordinary book pages. SPECIMEN COPIES SENT FREE. Terms—\$5 a year; \$10 a half year; Clubs of ten cost for one year, \$20 each; 25. With a Splendid Premium to the person who forms the Club, consisting of a copy of the celebrated steel-plate Engraving "Mon of Progress."

In connection with the PATENTS, publication of the Scientific American, the undersigned conduct the most extensive Agency in the world, for procuring Patents.

To obtain an answer to the question—Can I obtain a Patent? is to write to MAGEE & CO., 37 Park Row, New York, who have had over 25 years' experience in the business. No charge is made for opinion and advice, pen and ink excepted. All well written descriptions of the invention, should be sent. In connection with the SCIENTIFIC AMERICAN, the undersigned conduct the most extensive Agency in the world, for procuring Patents.

PATENTED 1869.

THE "DREADNOUGHT" SAFE,

Manufactured by the

Tilton-McFarland Safe Manufacturing Company,

95 and 97 Liberty Street,

NEW YORK,

The only Company manufacturing this

Burglar Proof Safe.

In introducing this BURGLAR-PROOF SAFE, the undersigned offers a safe, not burglar-proof merely in name, but one which may be relied upon to defy all the efforts of the most accomplished burglars for a longer period of time than they can ever have to operate upon a safe.

There is no other safe in the market which, by means of the most approved appliances, may not be opened by skilled burglars in from 15 to 20 hours of uninterrupted attack.

The Dreadnought Safe. It is admitted by scientific and practical men, well versed in all the unintercepted attack of skilled burglars, that the most modern appliances which can be carried or introduced into any Bank, Vault or Cashroom, as no equal power can be brought to bear in any such place as to overcome the strength and combination of the material used and the mode of construction.

POWDER OR NITRO-GLYCERINE cannot be introduced into it. WEDGES cannot be employed to open it. The Ox-hydrogen blow-pipe only opens the way to new and insurmountable difficulties before which the boldest burglar would shrink in despair. Drills, even though diamond-pointed, cannot penetrate its walls. It is impossible to drive in a bolt so as to make an aperture for introducing explosives, as no bolt in the safe passes entirely through the walls, and no bolt penetrates through the outer shell. The position of the bolts, their construction, size and the way they are inserted, all combine to add to the difficulty and perplexity of the burglar who attempts to open the safe.

Ayer's Cathartic Pills,

For the relief and cure of all derangements of the stomach, liver, and bowels. They are mild, aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much suffering is prevented by their timely use; and every family should have them on hand for their protection and relief when required. Much experience has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the curruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, and stimulated into action. Thus insidious disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although enemas, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box how to use them as a Family Pharmacy, and for the following complaints which they cure: For Constipation, Indigestion, Liver-ache, Bilious Headache, Sick Headache, Stomach and Loss of Appetite, their use should be resorted to. For Biliousness, Stomach-ache, Jaundice or Green Stools, Bilious Colic and Bilious Fevers, they should be judiciously taken for a course, to correct the diseased action or remove the obstructions which cause them.

For Dysentery or Diarrhoea, but one mild dose is given, and the system is restored to its healthy tone and action. For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Stomach-ache, Jaundice or Green Stools, Bilious Colic and Bilious Fevers, they should be judiciously taken for a course, to correct the diseased action or remove the obstructions which cause them.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Limbs, they should be judiciously taken, as required, to change the diseased action of the system. With such change complaints disappear.

For Dropsy and Dropsical Swellings,
